

## Python Developer

### Description

Link Technical Talent is looking for a skilled **Python Developer** to join our remote engineering team. The ideal candidate is passionate about writing clean, scalable code and building high-performance applications and backend systems.

You will work closely with cross-functional teams to design, develop, and deploy reliable software solutions that support business growth and innovation.

### Responsibilities

- Develop, test, and maintain scalable applications using **Python**.
- Build and integrate **RESTful APIs** and backend services.
- Write clean, efficient, and reusable code following best practices.
- Work with databases and optimize queries for performance.
- Collaborate with product managers, designers, and developers.
- Troubleshoot, debug, and improve existing systems.
- Participate in code reviews and agile development processes.

### Qualifications

- Bachelor's degree in Computer Science or equivalent experience.
- **2–5+ years** of professional Python development experience.
- Strong knowledge of Python frameworks (**Django, Flask, or FastAPI**).
- Experience with **REST APIs** and microservices architecture.
- Knowledge of databases (**PostgreSQL, MySQL, MongoDB**).
- Familiarity with **Git** and version control workflows.
- Understanding of cloud platforms (**AWS, Azure, or GCP**).
- Strong problem-solving and communication skills.
- Experience with **Docker** and containerization.
- Knowledge of CI/CD pipelines.
- Exposure to data processing or machine learning workflows.
- Experience working in remote Agile teams.
- 

### Job Benefits

- 🔗 Competitive salary + performance bonuses
- 🔗 100% Remote work
- 🔗 Flexible working hours
- 🔗 Health, dental & vision insurance
- 🔗 401(k) with company match
- 🔗 Career growth opportunities

### Contacts

Send your **Resume + Short Cover Letter** describing your Python project experience.
