

# Salesforce Developer

## Description

testRigor is looking for a skilled **Salesforce Developer** to design, develop, and maintain customized Salesforce solutions that support business operations and enhance customer experience.

The ideal candidate has strong experience with Salesforce customization, automation, integrations, and scalable platform development.

## Responsibilities

- Design and develop customized solutions on the **Salesforce platform**.
- Build and maintain **Apex classes, triggers, Lightning Web Components (LWC)**, and Visualforce pages.
- Configure workflows, validation rules, and automation processes.
- Integrate Salesforce with third-party systems using APIs and web services.
- Collaborate with stakeholders to gather requirements and deliver scalable solutions.
- Perform testing, debugging, and deployment activities.
- Maintain system performance, data integrity, and security compliance.

## Qualifications

- Bachelor's degree in Computer Science, IT, or related field (or equivalent experience).
- **2–6+ years** of Salesforce development experience.
- Strong knowledge of:
  - Apex Programming
  - Lightning Web Components (LWC)
  - Salesforce APIs & integrations
- Experience with **Sales Cloud** and/or **Service Cloud**.
- Proficiency with **SOQL/SOSL** and Salesforce data modeling.
- Experience with Git or version control systems.
- Strong analytical and problem-solving skills.
- Salesforce certifications (Platform Developer I/II preferred).
- Experience with CI/CD pipelines and DevOps tools.
- Knowledge of JavaScript, HTML, and CSS.
- Experience working in Agile/Scrum environments.
- Integration experience with enterprise or SaaS platforms.
- 

## Job Benefits

- ☑ Competitive salary + performance bonuses
- ☑ 100% Remote work flexibility
- ☑ Health, dental & vision insurance
- ☑ 401(k) with company match
- ☑ Paid time off & holidays
- ☑ Career growth and certification support
- ☑ Collaborative and innovative work culture
