Description

Link Technical Talent is seeking a **talented and self-driven Software Developer** to join our growing remote engineering team. The ideal candidate has strong programming skills, a passion for clean and efficient code, and a track record of building scalable, high-quality applications.

As part of our remote team, you'll collaborate with product managers, designers, and developers to design, build, test, and maintain innovative software solutions that meet user needs and align with business objectives.

Responsibilities

- Design, develop, test, and deploy software applications using modern programming languages and frameworks.
- Write **clean, efficient, and maintainable code** that adheres to best practices and coding standards.
- Collaborate with cross-functional teams to **translate requirements into technical solutions**.
- Participate in **code reviews, testing, and debugging** to ensure high software quality.
- Use **version control systems (Git)** and **CI/CD pipelines** to streamline workflows.
- Troubleshoot and resolve production issues, providing long-term, sustainable fixes.
- Stay current with emerging technologies and contribute to **continuous improvement** initiatives.

Qualifications

- Bachelor's degree in Computer Science, Software Engineering, or equivalent experience.
- 2–7+ years of professional software development experience.
- Proficiency in one or more programming languages: **JavaScript, Python, Java, C#, Go, or Ruby**.
- Experience with front-end frameworks (**React, Angular, Vue**) and/or back-end frameworks (**Node.js, Django, Spring Boot, .NET**).
- Familiarity with **REST APIs**, **databases** (SQL & NoSQL), and **cloud platforms** (AWS, Azure, or GCP).
- Strong understanding of **version control (Git)**.

- Excellent problem-solving, communication, and collaboration skills.
- Ability to work **independently in a remote environment**.
- Experience with **Agile/Scrum methodologies**.
- Knowledge of **containerization** (Docker, Kubernetes).
- Exposure to **DevOps practices and tools**.
- Understanding of **security best practices** in software development.
- Contributions to **open-source projects** or a **public GitHub portfolio**.
-

Job Benefits

- Competitive salary with **performance-based bonuses**.
- **100% remote work** and flexible hours.
- Health, dental, and vision insurance.
- **401(k)** plan with company match.
- Generous **paid time off (PTO)** and holidays.
- Career development opportunities, including access to **tech conferences**.
- Collaborative, inclusive, and fast-paced work culture.
